NEO NOSHIE

General engineering student — data focus

Montpellier, France | +33 6 83 13 24 26 | neo.noshie@epfedu.fr
linkedin.com/in/neo-noshie | neonoshie.com

PROFILE

Franco-Lebanese engineering student at EPF Montpellier, focused on data science, with a strong drive to learn and a keen interest in artificial intelligence, language and programming. Game jam winner, used to working in international teams (summer school in China, 11 countries) and holder of the French national student-entrepreneur status (SNEE). **Seeking a 4–6 month data internship (starting early July or September 2027), ideally abroad.** CACEIS appeals to me for its international footprint and the use of data in financial services.

EDUCATION

EPF Montpellier — General Engineering Degree *2024 – Present*
French national student-entrepreneur status (SNEE) · 2026

French Baccalauréat — GLFL (Grand Lycée Franco-Libanais) *2022 – 2024*
Specializations: Mathematics, Physics-Chemistry · Average: 15.8/20

Programming Training — New Horizon, Beirut *Summer 2022*

PROJECTS & ACADEMIC EXPERIENCE

Loop Quest — GameJam, video game development competition *April 2026*
Team of 4 · 4-day sprint · Team leader

- 2D escape game (Pygame, Phaser): puzzles, enemy fights, 3 lives, 9 connected mini-maps, time-limited run
- Led the project, coordinated the team and tracked progress under a tight deadline
- Designed the game environment (level design) and supervised technical development
- Tournament winner · Play: neonoshie.com/loopquest

Wi-Fi controlled robot — Group project *May 2026*

- Designed and built from scratch, as a team, a 4-wheel robot (ESP32) with a custom controller; strong hands-on involvement in the build

Ongoing technical projects *2026*

- BME280 sensor (temperature, humidity, pressure)
- Analysis of a mechanical system with AMESim

CUMT International Summer School — China University of Mining and Technology, Xuzhou *June 2026*

- Data mining and classification methods under Prof. Jakubowski (AGH University of Krakow)
- Collaborated with 30 engineering students from 11 countries in a fully English-language program
- Visited XCMG (multinational construction-machinery manufacturer); met senior directors to discuss industry and careers

SKILLS

Data & programming: Python, SQL (Microsoft Access), MATLAB, Arduino, ESP32 · 2D game development: Pygame, Phaser
Tools: Microsoft 365, CATIA, AMESim
Languages: English (C1) · French (native) · Arabic (B1) · Chinese (A1)

PROFESSIONAL EXPERIENCE

La Tête Dans Le Cru — Inventory Assistant Manager *August 2025*

- Order reception, stock control and supply planning
- Redesigned the shop's social media presence: **+60% post reach**

Restaurants du Cœur de l'Hérault — Volunteer *May – June 2026*

- Food and meal distribution, sorting and packing of donations, support with logistics and stock organization

Honey and Herbs — Beekeeping Assistant *June – August 2023*

- Supported soap production and beehive management in an eco-responsible small-batch setting

INTERESTS

Football (national level, 8 years) · Scuba diving (Master, IANTD equivalent) · Travel across Europe, the Middle East and Asia
